2026 Kentucky Hemp Association Annual Meeting

With Keynote Speaker Congressman James Comer

Thursday November 12, 2026 6-8pm via Zoom

Our annual meeting time and venue has changed to accommodate more people! Our meeting will now be held via Zoom on Thursday, November 12, 2026 from 6-8pm. We are excited to have Congressman James Comer as our keynote speaker.

Congressman Comer has co-sponsored House Bill HR 7024: Hemp Planting Predictability Act that would postpone changes to the hemp laws to November 2028. This would allow the hemp industry to continue business as usual, while allowing time to put in place common sense regulations.

Our annual meeting is typically limited to members only, but we feel it is important to open it up this year to all who have an interest in supporting this industry.

You must register in advance:

Your Voice Matters

The hemp industry needs your voice now more than ever. Lawmakers need to hear directly from the people who grow, manufacture, sell and use hemp products.

Contact your federal and state representatives. Let them know you support responsible regulation—not a federal ban on hemp-derived products. To find your representatives: https://www.usa.gov/elected-officials

Spread the word. Share information with your customers, friends, family, and fellow business owners. The more people who understand what is at stake, the stronger our voice becomes.

We have come too far to let our industry disappear. Together, we can make sure lawmakers hear us—and understand that there is a better path forward than a ban.

Thank you for your continued support of Kentucky hemp and the businesses, farmers, and consumers who depend on it.
